2,2-7,5 KW

SERIE-L BLUE SERIES SCREW COMPRESSOR

COMPAIR Serie L Screw Compressor

- Available in many models from 2.2 to 7.5 KW
- With C-Pro 1.0+ controller
- Up to 0.89 m³/min.

Description

The new design of the extremely efficient compressor chamber, which operates at low rotational speeds, results in lower energy costs.

The innovative integrated design with oil separation, oil filter, and thermostatic bypass valve reduces the number of external hoses and components, providing higher operational reliability.

Carefully tested inverter concept

Integrated into the electrical cabinet.

High-efficiency drive motor

SPECIFICATIONS

Motor	2.2-7.5 KW / 3-10 HP
Effective performance (at 10 bar)	0.18-0.89 m³/min.
Voltage	230 - 400 V
Max pressure	10 bar
Max noise level	63-70 dB
Weight	151-179 kg
