

5,5-22 KW

SERIE-L FS COMPLETE SCREW COMPRESSOR

COMPAIR Serie L AirPack L07eFS - L22FS complete screw compressor with fully integrated compressor chamber

- Minimal footprint, low noise levels, high-quality compressed air
- Available in many models from 7.5-22 KW
- Carefully tested inverter concept
- IP55 motor with high operational reliability
- High-efficiency drive motor
- Integrated into the control panel
- 10 years / 44,000 operating hours warranty
- Up to 3.65 m³/min.

Description

Screw compressor with fully integrated compressor chamber, including tank and air dryer.

The new design of the highly efficient compressor chamber, which operates at low rotational speeds, results in lower energy costs. The innovative integrated design with oil separation, oil filter, and thermostatic bypass valve reduces the number of external hoses and components, enhancing operational reliability.

Versioner

Serie L - AirPack complete screw compressor with tank and refrigerated dryer from 5.5-22 KW, and has an effective performance of 1.3-3.65 m³/min. Available in many versions. (at 7.5 bar) 079640 - L07eFS: 7.5 KW, 10 HP, 1.30 m³/min., refrigerated dryer F11C+, tank 270L, air outlet RP3/4", dimensions (L*W*H) 1541*808*1577 mm, 70 dB, 356 kg 079643 - L11eFS: 11 KW, 15 HP, 1.82 m³/min., refrige...

SPECIFICATIONS

Motor	7.5-22 KW / 10-30 HP
Effective Capacity (at 7.5 bar)	1.3-3.65 m ³ /min.
Tank Size	270L, 500L
Air Dryer Model	F11C+, F16C+, F26C+, F36C+
Voltage	400 V
Max Pressure	7.5-10 bar
Max Noise Level	70-71 dB
Weight	356-620 kg
